Physical Education Overview – Celebratory Sports Week Mapping

Celebratory Sports Week allows the children to put their skills and knowledge learning into practise by participating in a sport related to the teaching unit. Each teaching unit is 6 weeks, so it allows for this final week where the children get the opportunity to apply the skills and knowledge learnt to a team game, performance or tournament. The sport is chosen to match the skills and knowledge taught, but also matches the Sports Role Model sport – inspiring children to 'be like them'. This opportunity allows children to experience 'game' and 'performance' like scenarios developing their understanding of the PE pillars of progression *Rules, Strategies and Tactics* as well as developing *Healthy Participation*. We hope this inspires children to try these sports further in extra-curricular activities in school or clubs outside of the school context – interconnecting our school's positive physical culture.
